

Industry Guideline Information on Restrictions on the Use of Plant Protection Products on Deciduous fruit for 2015/16 - VERSION 1 – July 2015, on HORTGRO website

For your information amendments to this version include:

SA/EU/Export default MRL and/or export default withholding period information:

- Acetamiprid - EU MRL on peaches/nectarines
- Chlorphenapyr - Export Default Withholding period on apples
- Cyanamide - EU & export default MRL on apricots, plums, pears, apples & table grapes
- Dodine - Syllit - Export Default Withholding period on apples
- Flusilazole - EU MRL on pears, apples & table grapes
- Flutriafol - EU MRL on table grapes
- Gamma-cyhalothrin - EU & export default MRL on apricots, peaches/nectarines, plums, pears, apples & table grapes
- Iprodione - Iproflo & Roflo - Export Default Withholding period on apricots, peaches/nectarines & plums
- Oxamyl - Vydate SL - SA and Export Default Withholding period on peaches/nectarines
- Propargite - Export default MRL on peaches/ nectarines, pears & apples
- Tebuconazole - EU MRL on pears & apples

Inclusion of newly registered/additional actives:

- Bupirimate + Hexaconazole – Veto Plus on apples
- Codling moth and Oriental fruit moth granolosis virus on apricots, peaches/nectarines, plums, cherries, pears & apples
- Dithianon + Trifloxystobin - Combine 160 WDG on pears
- Mefenoxam - Ridomol Gold on apricots, peaches/nectarines, plums & cherries
- Pyrimethanil + Dithianon - Pyrinon 500 SC on pears & apples
- Thiabendazole - Thiazole 500 SC on pears
- Plant growth regulators (PGR's) confirmed to be used were previously added to the Industry Guideline Information. Information highlighted in yellow in the documents is provided as Draft information, to be confirmed in an update, once further information is received from Act 36.

Please review trade names to confirm further verified/ newly registered trade names provided by agro-chemical companies for this version.

As previously indicated, agrochemical labels constitute the legal entity and must always be consulted to confirm registration of products/trade names on relevant deciduous fruit crops, prior to use. It is strongly recommended that producers request product labels as reference to confirm registration of given trade names on relevant deciduous fruit crops, prior to purchase/use of the product.

Regarding MRL information per country:

Amendments to the previous version are not highlighted, however, as previously indicated, the **MRL Notes** column flags actives which have no MRL (indicated as -) or MRL's lower than the export default MRL, based on specific country MRL's or Codex MRL's, in cases where Codex is/may be applied (ie. MRL values in square brackets, under MRL Notes).

It is recommended that these are reviewed in conjunction with MRL information per country, as required.

Please review information per fruit type, as required, for further details.

Also refer to MRL Special Notes 2015/16 - ALL Fruit Types, under MRL documents, to see explanatory information.
