

Industry Guideline Information on Restrictions on the Use of Plant Protection Products on Deciduous fruit for 2016/17 - VERSION 2 – October 2016, on HORTGRO website

For your information amendments to this version include:

SA/EU/Export default MRL and/or export default withholding period information/ Codex MRL information:

- (1-naphthyl) acetamide (NAD) – EU MRL on pears and apples
- Captan – EU and Export default MRL on apricots, peaches/ nectarines, plums, pears, apples and table grapes
- Chlorpyrifos – EU MRL on peaches/nectarines, pears, apples and table grapes
- Cyprodinil – EU MRL on apples
- Dimethomorph – Codex MRL on table grapes
- Esfenvalerate – Codex MRL on table grapes
- Fenamidone – EU and Codex MRL on table grapes
- Folpet – EU and Export default MRL on table grapes
- Metrafenone – Codex MRL on table grapes
- Myclobutanil – EU and Codex MRL on pears and apples
- Pirimicarb – EU and Export default MRL & Export default withholding period on apricots and plums; EU MRL on peaches/ nectarines and apples
- Propiconazole – EU MRL on apricots, plums and cherries
- Spiroxamine – EU MRL change table grapes
- Sulfoxaflor – Codex MRL on peaches/ nectarines and plums
- Thiamethoxam – EU MRL on apples
- Thiamethoxam – EU MRL on table grapes
- Triadimenol – Codex MRL on table grapes

Inclusion of newly registered/additional actives:

- Clothianidin – Dantop 20 SC on table grapes
- Sulfoxaflor - Closer 240 SC on pears, apples and table grapes

Plant growth regulators (PGR's) were previously added to the Industry Guideline Information, with highlighted information in the documents provided as Draft information, until further information is received from Act 36.

Please review trade names to confirm further verified/ newly registered trade names provided by agro-chemical companies for this version.

As previously indicated, agrochemical labels constitute the legal entity and must always be consulted to confirm registration of products/trade names on relevant deciduous fruit crops, prior to use. It is strongly recommended that producers request product labels as reference to confirm registration of given trade names on relevant deciduous fruit crops, prior to purchase/use of the product.

Regarding MRL information per country:

Amendments to the previous version are not highlighted, however, as previously indicated, the **MRL Notes** column flags actives which have no MRL (indicated as -) or MRL's lower than the export default MRL, based on specific country MRL's or Codex MRL's, in cases where Codex is/may be applied (ie. MRL values in square brackets, under MRL Notes).

It is recommended that these are reviewed in conjunction with MRL information per country, as required.

Please review information per fruit type, as required, for further details.

Also refer to MRL Special Notes 2016/17 - ALL Fruit Types, under MRL documents, to see explanatory information.
