

Industry Guideline Information on Restrictions on the Use of Plant Protection Products on Deciduous fruit for 2017/18 - VERSION 1 – July 2017, on HORTGRO website

For your information amendments to this version include:

SA/EU/Export default MRL and/or export default withholding period information/ Codex MRL information:

- Abamectin – Codex MRL on apricots, peaches/nectarines, plums, cherries, pears and apples
- Acetamiprid + Novaluron - Cormoran 180 EC –SA & Export default withholding period on pears and apples
- Azoxystrobin – EU MRL on table grapes
- Bifenthrin - EU and Export default MRL on pears and apples
- Deltamethrin – EU MRL on peaches/nectarines and plums
- Ethephon – Codex MRL on cherries and table grapes
- Folpet – EU and Export default MRL on table grapes
- Methomyl – EU MRL on peaches/nectarines
- Spinosad – SA & Export default withholding period on apricots, peaches/nectarines, plums, cherries, pears, apples and table grapes
- Sulfoxaflor – Codex MRL on peaches/ nectarines and EU and Export default MRL & Export default withholding period on plums
- Triadimenol – Export default MRL and Export default withholding period on table grapes

Inclusion of newly registered/additional actives:

- (E)-8-Dodecen-1-yl acetate + (Z)-8-Dodecen-1-yl acetate – Checkmate FCM-F, Isomate FCM & RB Splat FCM on apricots, peaches/nectarines, plums, cherries and table grapes
- Acetamiprid + Novaluron - Cormoran 180 EC on apricots, peaches/nectarines, plums and cherries
- Bacillus amyloliquefaciens - Amylo-X on table grapes
- Botanical extracts (Natural Pyrethrin) – Xterminator on apricots, peaches/nectarines, plums, cherries, pears, apples and table grapes
- Chlorantraniliprole – Altacor on peaches/nectarines, plums and table grapes
- Cyprodinil – Mirano 50 WG on pears
- Didecyldimethylammonium chloride – Sporekill on apricots, peaches/nectarines, plums and cherries
- Emamectin benzoate - Warlock 19.2 EC on apricots, peaches/nectarines, plums, cherries and table grapes
- False Codling moth granulosis virus – Cryptex on apricots and cherries
- Indoxacarb + Novaluron – Plemax on pears and apples
- Trichoderma harzianum - Eco-77 on table grapes

Please review trade names to confirm further verified/ newly registered trade names provided by agro-chemical companies for this version.

As previously indicated, agrochemical labels constitute the legal entity and must always be consulted to confirm registration of products/trade names on relevant deciduous fruit crops, prior to use. It is strongly recommended that producers request product labels as reference to confirm registration of given trade names on relevant deciduous fruit crops, prior to purchase/use of the product.

Regarding MRL information per country:

Amendments to the previous version are not highlighted, however, as previously indicated, the **MRL Notes** column flags actives which have no MRL (indicated as -) or MRL's lower than the export default MRL, based on specific country MRL's or Codex MRL's, in cases where Codex is/may be applied (ie. MRL values in square brackets, under MRL Notes).

It is recommended that these are reviewed in conjunction with MRL information per country, as required.

fresh NOTES

a technical update published by HORTGRO science 

Please review information per fruit type, as required, for further details.

Also refer to [MRL Special Notes 2017/18 - ALL Fruit Types](#), under MRL documents, to see explanatory information.
