

Industry Guideline Information on Restrictions on the Use of Plant Protection Products on Deciduous fruit for 2017/18 - VERSION 2 – October 2017, on HORTGRO website

For your information amendments to this version include:

SA/EU/Export default MRL and/or export default withholding period information/ Codex MRL information:

- 2-(1-naphthyl) acetic acid (NAA) - EU and Export default MRL on apples
- 6-benzyl adenine (BA) - EU MRL on pears
- Aviglycine HCL (Aminoethoxyvinylglycine Hydrochloride) - EU MRL on peaches/nectarines, plums and apples
- Bacillus subtilis - EU MRL on table grapes
- Bacillus Thuringiensis - EU MRL on apricots, peaches/nectarines, plums, cherries, apples and table grapes
- Beauveria bassiana - EU MRL on apricots, peaches/nectarines, plums, cherries and apples
- Captan - Export default withholding period on apricots, peaches/nectarines and plums
- Ethephon - EU MRL on cherries
- Mefenoxam (Metalaxyl) - Export default MRL, SA & Export default withholding period on apricots, peaches/nectarines, plums and cherries
- Penconazole - EU MRL on table grapes
- Pyrimethanil + Fludioxonil - Tutor 500 SC - SA & Export default withholding period on apricots, peaches/nectarines and plums
- Spinetoram - EU and Export default MRL on cherries
- Thiabendazole - EU and Export default MRL on pears
- Triadimenol - EU MRL on table grapes

Please review trade names to confirm further verified/ newly registered trade names provided by agro-chemical companies for this version.

As previously indicated, agrochemical labels constitute the legal entity and must always be consulted to confirm registration of products/trade names on relevant deciduous fruit crops, prior to use. It is strongly recommended that producers request product labels as reference to confirm registration of given trade names on relevant deciduous fruit crops, prior to purchase/use of the product.

Regarding MRL information per country:

Amendments to the previous version are not highlighted, however, as previously indicated, the **MRL Notes** column flags actives which have no MRL (indicated as -) or MRL's lower than the export default MRL, based on specific country MRL's or Codex MRL's, in cases where Codex is/may be applied (ie. MRL values in square brackets, under MRL Notes).

It is recommended that these are reviewed in conjunction with MRL information per country, as required.

Please review information per fruit type, as required, for further details.

Also refer to MRL Special Notes 2017/18 - ALL Fruit Types, under MRL documents, to see explanatory information.
