Please review trade names to confirm further verified/ newly registered trade names provided by agro-chemical companies for this version.

**As previously indicated, agrochemical labels constitute the legal entity and must always be consulted to confirm registration of products/trade names on relevant deciduous fruit crops, prior to use. It is strongly recommended that producers request product labels as reference to confirm registration of given trade names on relevant deciduous fruit crops, prior to purchase/use of the product.**

Regarding MRL information per country:

Amendments to the previous version are not highlighted, however, as previously indicated, the **MRL Notes** column flags actives which have no MRL (indicated as -) or MRL's lower than the export default MRL, based on specific country MRL's or Codex MRL's, in cases where Codex is/may be applied (ie. MRL values in square brackets, under MRL Notes).

**It is recommended that these are reviewed in conjunction with MRL information per country, as required.**

**Please review information per fruit type, as required, for further details.**

**Also refer to MRL Special Notes 2019/20 - ALL Fruit Types, under MRL documents, to see explanatory information.**
